

May 9, 2014

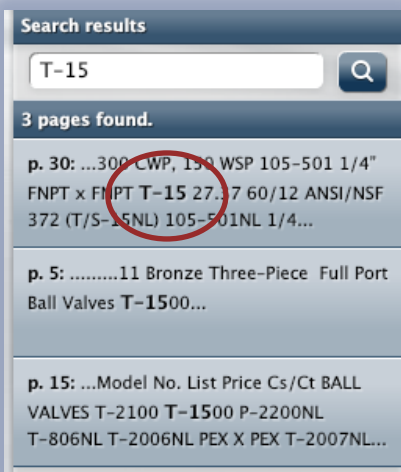

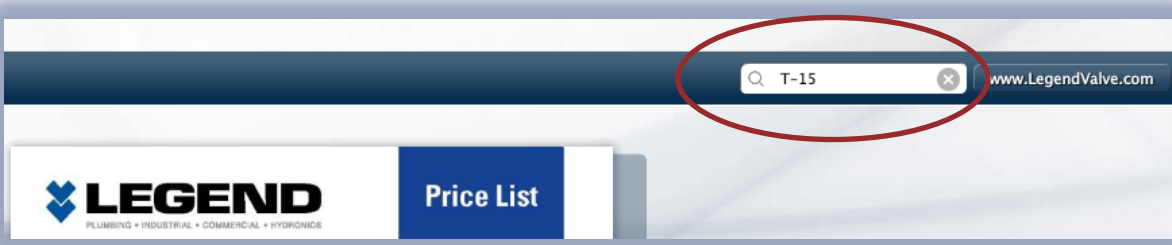

Dear Ladies and Gentlemen:

We are very pleased to provide you with another new Legend sales tool. At the link provided within the email message to which this document was attached, you will find the new Legend Price List 'Flip Book'. At anytime you can simply use it at our website through your web browser. (The .exe version for PC's and .app version is for Apple devices will be made available to you for downloading at a later date.)

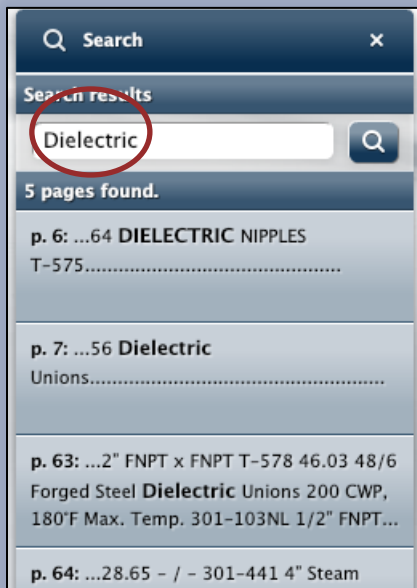

You can browse through the price list by simply "turning" the page or clicking on the directional arrows.

This also has a powerful search function. Across the top you will see the search box and icon.

Once you enter a part number, descriptive word, or in this case, a model number (T-15), the left margin will display where you can find what you seek. Simply click whichever you select and it will take you to that page.

As shown here, you can effectively search by word as well.

EFFECTIVE DATE: April 1, 2014 1-800-752-2082 **LEGEND**

**SUPPLY STOPS - 1/4 TURN**

**1/4 Turn Straight Valves**

42 Items not highlighted in green available only in traditional alloy

Simply hover your cursor over the image and click which will then take you to the appropriate product submittal. This works when you works when you an internet connection.

If the item is available in traditional and no lead brass alloy, the submittals for both will be linked.

In some instances the no lead submittal may be missing as we are presently updating several.

The home for the Legend "Flip Book" is on the list pricing page of the Legend website. Click on the icon to operate anytime.

Please let us know if you have any questions.

Good Selling!

Sincerely,  
Legend Valve & Fitting, Inc.
